| 1 TELECOMMUNICATION EQUIPMENT | | |
| 1.1 Automatic exchanges: - private automatic branch exchange including low-capacity exchange; - office PBXs; - subscriber equipment; - switching equipment; - intermediate and auxiliary equipment for exchanges; - trunk multiplexers; - information system equipment; - Call Center and Contact Center equipment; - equipment of maintenance and management system; - smart-service equipment | 32.20.20 32.20.20.400 32.20.20.500 32.20.20.600 | 8517 8517 30 8517 50 8517 80 8517 90 |
| 1.2 Facilities and equipment of telephone and facsimile connection: - analogue and digital telephone sets; - system phones; - ISDN terminal equipment; - IP-phones, IP-adapters; - answering machines; - telephone sets with cordless handset; - subscriber lines protection equipment; - facsimile sets and equipment; - operative, dispatching, secretarial and loud speaking equipment; - video telephones; - telephone attachments; - payphone control system; - payphones; - terminal adapters | 32.20.200 32.20.20.400 32.20.20.600 32.20.20.750 | 8517 8517 11 8517 19 8517 21 8517 50 8517 80 |
| 1.3 Data communication equipment: a) secondary multiplexing equipment: - multiplexers, demultiplexers, muldexes, demodulators, modulators; - subscriber line multiplexing equipment; - interstation connection line multiplexing equipment | 32.20.20 32.20.20.40 32.20.20.500 32.20.20.600 32.20.20.790 | 8471 8517 8517 30 8517 50 8417 80 |
| b) data network equipment: - switches, routers, gateways, screens and access servers; - digital data network equipment (including xDSL, PDH, SDH); - informational-switching system equipment; - videoconference equipment; - video text equipment; - voice mail equipment; - primary multiplexing equipment (EMUX, DCME, PCME); - telemechanics equipment and systems; - remote control equipment and systems; - computer-telephony equipment | | |
| c) fiber-optical equipment (optical multiplexers, amplifiers, single-mode and multi-mode optical systems) | | |
| d) data communication facilities connection equipment: - coders, decoders, scramblers, regenerators, concentrators, modems; - synchronization network equipment; - local network and access network systems (xDSL, PON, B-PON, G-PON and others); - telecommunication service billing equipment | | |

|---|---|--|
| 1.4 Transmitter-receiver radio equipment: - general-purpose radio station; - equipment and apparatus for transmitter-receiver radio (including wireless phone, satellite, trunking, cellular) access; - personal radio call equipment; - radio equipment of alarm system; - radio-relay stations and component equipment for radio-relay stations - paging equipment | 31.62.11 32.20.11 32.30.11 32.30.12 | 8471 8517 8517 11 8517 19 8525 8525 10 8525 20 8527 8527 29 8531 10 |
| 1.5 Transmitter-receiver radiotelephone equipment: - telephones and radiotelephones for wire communication with cordless handset; - radio payphones; - radio modems; - radio extenders; - wireless microphones | | |
| 1.6 Cable television equipment working in frequency range 5 MHz to 1 GHz | 32.20.11 32.30.20 32.30.3 36.63.74 | 8525 |
| 1.7 Components and auxiliary devices for telecommunication equipment 1.7.1 Nodes and details for telecommunications equipment: - cross equipment for exchanges; cabinets and distribution boxes; - electrical low-voltage connectors and preliminary composed electro technical low-voltage elements - optical cords, coaxial, fiber-optic and combined connectors, cables, optical components etc.; - electrical low-voltage complete devices | 31.10.3 31.10.50 31.20.27 31.20.31 31.30.12 31.30.13 31.30.14 31.30.15 | 8504 40 8536 8536 69 8536 90 8537 8537 10 8538 10 8544 |
| 1.7.2 Secondary power supplies (alternative and direct current), inverters, converters, rectifiers, stabilizers, uninterruptible power supplies and systems, chargers for batteries (accumulators) | 32.20.20 33.30.10 | 8544 41 |
| 1.7.3 Data mediums including identification cards (phone, payphone and other): - integrated circuits cards with contacts; - integrated circuits cards without contacts; - cards with optical memory; - cards with embossing; - cards with magnetic stripe; - other | 24.65.10 | 8523 30 8524 60 8524 91 8524 99 8542 10 |
| 1.7.4 Nodes and details for telephone equipment: - microtelephones, laryngophones, microtelephone headsets; - dialers, telephone keys; - telephone sockets and plugs; - telephones, microphones | 32.20.30.300 32.20.30.500 | 8517 90 8518 10 8518 21 8518 30 |
| 1.7.5 Shielded chambers | 45.25.62.210 | 8470 |

| 2 OFFICE EQUIPMENT AND COMPUTERS | | |
| 2.1 Electronic computers and other devices for information processing including those intended to execute certain functions via telecommunication networks: <ul style="list-style-type: none"> - digital electronic computers and computer complexes (including personal computers, work stations, servers); - digital central computer devices; - input and output devices including video equipment (displays, monitors, video terminals, video devices); - printing devices including those combined in one case with scanner for copying purpose; - multimedia projectors operating with help of personal computers; - other devices for information automatic processing; - monitoring systems, complexes and equipment for automatic control and adjustment on the basis of personal computer; - complexes on the basis of personal computer with management system and data communication system | 30.01 30.01.11 30.01.12 30.01.13 30.01.21 30.01.23 30.01.24 30.02.1 30.02.11 30.02.12 30.02.13 30.02.14 30.02.15 30.02.16 31.10.50 | 8470 8470 21 8470 29 8470 30 8470 40 8470 50 8470 90 8471 8471 10 8471 30 8471 41 8471 49 8471 50 8471 60 8471 70 |
| 2.2 Office equipment, facilities for automation and mechanization of administration and engineering works, including those intended to execute certain functions via telecommunication network: <ul style="list-style-type: none"> - text processing machines; - electronic registers, check-outs, computer check-outs; - electrical and electronic printing machines; - copying machines including photocopying machines; - sales terminals, specialized terminals; - other electronic office equipment | 32.20.20 33.40.35 32.20.20 | 8471 80 8471 90 9008 |
| 2.3 Power supplying units and devices for office equipment and computers (build-in or stand-alone), including uninterruptible power supplies | | |
| 3 RADIOELECTRONIC HOUSEHOLD APPARATUS | | |
| 3.1 Tape recorders and dictaphones (except devices for automobiles) 3.2 Active acoustic systems and three programs receivers 3.3 Disk players, amplifying apparatus and auxiliary devices 3.4 Electric musical instruments 3.5 Electronic and electrical playing machines, electronic educational devices and computer games 3.6 Video games using television set and television-game devices 3.7 Power supplying units, devices and equipment, chargers | 31.10.3 31.10.50 31.10.51 32.30.31 32.30.32 32.30.42 32.30.43 32.30.51 32.30.20 33.30.10 36.30.15 36.50.42 36.50.43 36.63.74 | 8473 8502 8504 8518 8519 8520 8521 8522 8528 9023 9032 9207 9503 9504 |
| 4 ELECTRICAL HOUSEHOLD AND SIMILAR EQUIPMENT AND COMPONENTS | | |
| 4.1 Refrigerating equipment including: <ul style="list-style-type: none"> - refrigerators, freezers, ice-cream freezers, ice generator, equipment for vegetable and fruit storage at low temperatures | 29.71.11 29.71.13 | 8418 |
| 4.2 Cooking equipment including: <ul style="list-style-type: none"> 4.2.1 Devices for liquid heating: <ul style="list-style-type: none"> - kettles and other devices for water boiling with nominal capacity less than 10 l, coffee makers, egg cookers, milk heaters, express coffee makers, warmers for bottles with baby food, devices for slow cooking, devices for yoghurt cooking, water boilers with mounting, glue heaters with water bath | 29.71.24 29.71.25 | 8516 |
| 4.2.2 Stoves, kitchen ranges, cooking tables: <ul style="list-style-type: none"> - electric stoves, stationary frying box, range burners, ovens, built-in grills, electric ovens, electric tables | 29.71.27 29.71.28 | |

| 1 | 2 | 3 |
|--|--|--|
| 4.2.3 Electrothermal devices: - toasters, grills, roasters, braziers, portable frying boxes, contact grills, waffle irons, food warmers, frying machines and deep fryers | 29.71.24 29.71.28 | 8516 |
| 4.3 Devices for kitchen works mechanization: - kitchen machinery (universal kitchen machines, processors etc.) coffee mills, coffee grinders, grain grinders, devices for kitchen machines, juice extractors, mixers, household dishwashing machines, blenders | 29.71.12 29.71.21 | 8509 |
| 4.4 Sanitary and hygienic equipment | 29.56.21 | 8421 |
| 4.4.1 Washing machines, centrifuges, electric clothes driers, electric footwear driers, electric drum-type driers | 29.71.13 29.71.21 | 8450 8451 |
| 4.4.2 Irons, ironing machines and presses | 29.71.22 | 8509 |
| 4.4.3 Vacuum cleaners, water absorbing machines and sweepers, floor polishers | 29.71.23 | 8510 |
| 4.4.4 Electric brushes for clothes and footwear | | 8516 |
| 4.4.5 Razors, epilators, hairclippers and similar mains-operated or battery devices | | |
| 4.5 Devices for skin and hair care: | 29.71.21 | 8509 80 |
| - hairdryers, curling tongs, curling combs, devices for permanent waving, devices for hand drying, devices for massages, vortical devices for baths (Jacuzzi type) | 29.71.23 | 8516 10 8516 31 8516 32 8516 33 |
| 4.6 Devices for liquid heating: | 29.71.25 | 8509 |
| - devices for linen boiling, sterilization, water boilers with mounting and power less than 5 kW, accumulating water heaters, running water heaters | 29.71.26 | 8516 |
| 4.7 Microclimate device including: | 29.23.11 | 8414 |
| - fans (overhead, desk-mounted, torchère etc.) and switches for them, kitchen extractor fans, air cleaners, air ionizations, combined conditioner, conditioner/cooler/heater type devices, air moisteners | 29.23.12 29.23.14 29.71.15 | 8415 8421 |
| 4.8 Room heaters: | | |
| - fireplaces, convectors, fan heaters, radiators, including heating devices for saunas; - heat-accumulating room heaters (radiators) | 29.71.26 | 8516 |
| 4.9 Sewing machines | 29.54.50 | 8452 |
| 4.10 Household portable electrical heater tools and devices | 29.71.24 | 8515 |
| 4.11 Devices for farming and similar works: | 29.32.20 | 8421 |
| - Creamers with power less than 1 kW, cauldron for fodder preparing, electric churns, electric incubators, fodder shredders with power less than 5 kW, milking machine, equipment for greenhouse heating, electric fodder mixers | 29.32.63 29.53.11 29.53.12 29.71.21 29.71.25 | 8433 8434 8435 8436 8516 |
| 4.12 Other electrical household appliances: | 29.12.22 | 8413 |
| - pumps and compressors, liquid pumps, devices for aquariums and for garden ponds, electrical appliances for insect annihilation and frightening, chargers for batteries (accumulators), built-in electric motor devices operating without external power supply, AC mains powered electric clocks | 29.12.24 29.12.33 29.71.21 31.10.50 33.50.14 | 8504 8509 8516 9105 |
| 4.13 Wiring components and connecting devices as well as adjusting equipment for low voltage including: | 31.20.21 | 8535 |
| - connectors, plugs and sockets, switches, disconnecting switches, combined nodes with protection devices (except electronic), automatic low voltage disconnectors | 31.20.22 31.20.25 31.20.27 | 8536 8537 |
| 5 GUARD-PURPOSE DEVICES | | |
| 5.1 Announcers for: | 31.62.11 | 8471 |
| - guard, guard and fire-fighting, access control, videoannouncer | 32.30.33 | 8521 |
| 5.2 Control and indicating equipment for: | 31.62.11 | 8528 |
| - guard, guard and fire-fighting, access, guard tele-(video-) systems | | 8529 |
| 5.3 Control devices, devices for authorized access, signal-starting devices: | 31.20.3 | 8531 |
| - guard, guard and fire-fighting, access control, guard tele-(video-) systems | 31.62.11 | |

| 1 | 2 | 3 |
|---|---|---|
| 5.4 Announcers for: - guard, guard and fire-fighting, access control | 31.62.11 | |
| 5.5 Alarm signals transfer systems and centralized monitoring panels for guard-purpose including for car guarding | 31.62.11 30.02.12 30.02.14 32.20.20 | |
| 5.6 Control and indicating guard equipment and devices for cars: - announcers, signal devices, control devices, signal-antitheft | 31.62.11 32.30 | |
| 5.7 Components for systems, panels, devices, apparatus, equipment of guard, guard and fire-fighting signaling systems, for access control and guard tele-(video-) systems | 31.62.11 32.20.1 32.30.11 32.30.32 32.30.33 | |
